PSYCH 3215
Infancy & Early Childhood

What is “normal” for infant behavior?
Why do two-year olds throw tantrums?
Is daycare bad for my child?
How do you raise intelligent kids?

Learn about the cognitive, social, and emotional development that occurs in infancy and early childhood. Topics such as the formation of attachment, gender socialization, and moral development will be covered. Take this class from the comfort and convenience of your own home - all assignments and tests will be taken online!
